Summary: Highly skilled and experienced software engineer with a strong background in web development, ASP.NET, and project management. Proven track record of successfully leading teams and delivering projects on time. Seeking a position that leverages my expertise in software development, project management, and team leadership.

Professional Experience:

ASP.NET Web Developer [Company Name], [City, State] (April 2015 - Current)

Migration of IU Print website (print.iu.edu) from ColdFusion to ASP.NET using MVC Framework

Created a prototype dashboard for IU Print Analytics module using High Charts

Led a team to develop multiple projects, including DEBTS, Supplier Portal, eRFA, and Export Logging Tool

Software Engineer [Company Name], [City, State] (July 2011 - July 2014)

Designed and developed an application to migrate legacy data to ASP.NET application

Designed storyboards using HTML and CSS, designed databases for applications by analyzing customer requirements

Participated in code reviews, pair programming, and integration/deployment phases of applications

Technical Skills:

Programming Languages: C#, ASP.NET, Java, JavaScript

Web Technologies: SharePoint 2010, ASP.NET 4.0/3.5/2.0, MVC 4

Application Software: Visual Studio 2008/2010/2013, SQL Server Management Studio

Databases: SQL Server 2005/2008 R2, MySQL, Oracle

Other: HTML, JQuery, CSS, Bootstrap, JIRA, Source Controls: Team Foundation Server, GitHub, Visual Source Safe

Project Management: Led teams to deliver projects on time,

managed resources, and ensured quality

Projects:

LEDGER: Managed task of invoice clearance for finance benefits trust accounts of Pratt & Whitney, tracked invoices charged back to department budgets or business units.

DEBTS: Developed tool to calculate employee tax based on certain parameters, connected to SFTP to download flat files, performed validation rules, and decided record status.

Supplier Portal: Designed portal in SharePoint 2010 to collaborate with suppliers, simplified access to business and technical information.

eRFA: Developed electronic agreement application in SharePoint, eliminated manual efforts, and improved approval process and status tracking.

Export Logging Tool: Developed web-based application to collect and log export activities, included facility to upload bulk data and validate data against business rules.

Education:

Master of Science in Computer Science, Indiana University (2015)

Bachelor of Technology in Computer Science and Engineering, Jawaharlal Nehru Technological University (2011)

Certifications:

RFA (electronic Request For Agreement)

Professional Affiliations:

Team Foundation Server

GitHub

Visual Source Safe

Skills:

ASP, ASP.NET, Model View Controller, Model-view-controller, Ms Asp, Mvc, .net, Access, Adp, Application Software, Asp.net 4.0, Associate, Award, Benefits, Bootstrap, Budget, C#, Coding, Css, Database, Databases, Deployment, Engineer, Engines, Exceptions, File, Finance, Html, Integration, Integrator, Invoice, Invoices, Javascript, JQuery, Logging, Long-term Disability, Ltd, Microsoft Sharepoint, Ms Sql Server, Mysql, Oracle, R2, Sap, Secure File Transfer Protocol, Security, Sftp, Sharepoint, Software Engineer, Sql, Sql Server, Sql Server 2005, Sql Server 2012, Ui, User Interface, Visual Studio, Web Based, Coldfusion, Prototype, Prototypes

Awards and Recognition:

Won Associate of the Month award at CYIENT

Member of the team which won the Team of the Month award

for projects such as DEBTS and eRFA

Stood 3rd in SIASAT's national level talent search examination during high school
